The Journal of Experimental Biology

EDITED BY
J. GRAY

600

ASSISTED BY
THE HON. SECRETARIES, SOCIETY FOR EXPERIMENTAL BIOLOGY

VOLUME XXIII

CAMBRIDGE
AT THE UNIVERSITY PRESS
1947

Published for the Company of Biologists Limited

First printed in Great Britain at the University Press, Cambridge
Reprinted by offset-litho by
Percy Lund Humphries and Co. Ltd., Bradford
and published by the Cambridge University Press
Cambridge, and Bentley House, London
Agents for Canada and India: Macmillan

CONTENTS

No. 1. OCTOBER 1946

PAGE

GEORGE SALT AND F. S. J. HOLLICK. Studies of wireworm populations. II. Spatial distribution. (With Four Text-figures) 1

J. D. SMYTH. Studies on tapeworm physiology. I. The cultivation of *Schistocephalus solidus in vitro*. (With Plates 1–3 and Five Text-figures) . . . 47

ARTHUR WALTON AND W. URUSKI. The effects of low atmospheric pressure on the fertility of male rabbits 71

LORD ROTHSCHILD. The theory of alternating current measurements in biology and its application to the investigation of the biophysical properties of the trout egg. (With Eight Text-figures) 77

No. 2. DECEMBER 1946

J. GRAY. The mechanism of locomotion in snakes. (With Plates 4–6 and Twelve Text-figures) 101

J. GRAY AND H. W. LISSMANN. Further observations on the effect of deafferentation on the locomotory activity of amphibian limbs. (With Four Text-figures) . 121

J. GRAY AND H. W. LISSMANN. The co-ordination of limb movements in the amphibia. (With Six Text-figures) 133

H. W. LISSMANN. The neurological basis of the locomotory rhythm in the spinal dogfish (*Scyllium canicula*, *Acanthias vulgaris*). I. Reflex behaviour. (With Fifteen Text-figures) 143

H. W. LISSMANN. The neurological basis of the locomotory rhythm in the spinal dogfish (*Scyllium canicula*, *Acanthias vulgaris*). II. The effect of de-afferentation. (With Thirteen Text-figures) 162

OLIVER R. BARCLAY. The mechanics of amphibian locomotion. (With Sixteen Text-figures) 177

Nos. 3 and 4. MARCH 1947

C. A. G. WIERSMA AND ERNEST B. WRIGHT. The nature of the action potentials of crustacean muscles. (With Plates 7 and 8) 205

J. W. L. BEAMENT. The formation and structure of the micropylar complex in the egg-shell of *Rhodnius Prolixus* Stähl. (Heteroptera Reduviidae). (With Fifteen Text-figures) 213

W. H. THORPE, A. C. CROMBIE, R. HILL AND J. H. DARRAH. The behaviour of wireworms in response to chemical stimulation. (With Plate 9 and Eleven Text-figures) 234

PAGE

LORD ROTHSCHILD. Spontaneous rhythmical impedance changes in the egg of the trout. II. (With Five Text-figures) 267

ERNEST BALDWIN AND VIVIEN MOYLE. An isolated nerve-muscle preparation from *Ascaris lumbricoides*. (With Five Text-figures) 277

IVOR CORNMAN. The responses of onion and lily mitosis to coumarin and parasorbic acid. (With Plate 10) 292

J. R. ERICHSEN JONES. The oxygen consumption of *Gasterosteus aculeatus* L. in toxic solutions. (With Ten Text-figures) 298

PATRICIA ALLEN, F. W. ROGERS BRAMBELL AND IVOR H. MILLS. Studies on sterility and prenatal mortality in wild rabbits. I. The reliability of estimates of prenatal mortality based on counts of corpora lutea, implantation sites and embryos. (With Four Text-figures) 312

F. W. ROGERS BRAMBELL AND IVOR H. MILLS. Studies on sterility and prenatal mortality in wild rabbits. II. The occurrence of fibrin in the yolk-sac contents of embryos during and immediately after implantation. (With Plate 11) . . 332

A. T. PHILLIPSON. The production of fatty acids in the alimentary tract of the dog 346

ERIC PONDER. Disk-sphere transformations produced by lysins, and their reversal, in systems of different *p*H 350

SYDNEY SMITH. Studies in the development of the rainbow trout (*Salmo irideus*). I. The heat production and nitrogenous excretion. (With Five Text-figures) 357

A. D. LEES. Transpiration and the structure of the epicuticle in ticks. (With Thirteen Text-figures) 379

Index 411
